City Property for Sale.

We have a number of choicely located lots with and without buildings, close in with sewer, city water, electric lights and sidewalks that we are offering at very low prices. Much less than we will be able to offer them when the spring opens up.

In our judgment there will be a big advance on this class of property soon.

BUCHANAN & PATTERSON.

### Francis Stolle Elopes With Nurse.

Francis Stolle, a former North Platte boy, who for several years has been a student at the Leland Stanford university at Palo Alto, Cal., taking the medical course, figured in an elopement last week. The lady in the case was Miss Vivian Freeman, of San Francisco, a graduate nurse at the Lane hospital. The wedding occurred at San Rafael, and upon learning of the marriage the mother and aunt of the bride, the living relatives, overlooked the elopement and extended their blessing to the young couple.

Mr. Stolle, who is a nephew of Mr. and Mrs. Victor Von Goetz, is a bright young man and will no doubt become a leading physician of California.

### Auto Notice.

Let a demonstration in a Buick car over the hills of the Buick route be the standard by which you judge all automobiles. J. S. DAVIS AUTO CO. North Platte, Nebr.

### February Weather.

Last month the temperature went hippity skippy, ranging from a maximum of sixty-eight above to a minimum of eighteen below zero. As a whole the month was several degrees colder than the average. The lowest temperature in any February was thirty-five degrees below zero. The precipitation was just a little less than an inch, which is more than double the average for February. The total movement of wind was less than 5,000 miles, and the highest velocity thirty miles per hour.

There are many additions and lots upon the market, but only in the Trustee's and Riverdale additions are residence lots to be found for sale improved with cement sidewalks, sewer, water main and graded streets. These improvements cost about \$100 a lot but enhance the value of the lots much more than that. Permanent sidewalks reach to every lot in the Trustee's and Riverdale additions and city mail is delivered. Splendid basements may be built without fear of water and the sewer is deeper in the ground than in any other part of the city. These lots are situated between seven and ten blocks from Dewey street. Prices of lots, \$250 to \$400. A discount will be given for cash or easy terms to those who prefer.

For sale by Wm. E. Shuman.

Last week a new arrival in town sought a house in which to live. He visited Patterson & Buchanan and that firm said they didn't have anything in the house line; Bratt & Goodman said they had one house but it was uninhabitable. C. F. Temple reported one house but would not recommend it for residence purposes. That's the condition in North Platte today. Twenty-five good residences could be rented out within an hour's time if they were available.

Lester Oscar Caster, the seven year old son of Mr. and Mrs. John Caster, died Sunday at his home in the Fourth ward. Death was due to brain fever. The remains were taken to Farnam yesterday morning accompanied by the parents and other relatives.

The friends of Walter B. McNeel, the north side stockman will regret to learn that he is in a very serious condition due to diabetic gangrene. An amputation of one of his limbs might prolong his life for a time, but it has not yet been decided whether this operation will be performed.

Miss Sybil Klein expects to leave in a short time for Falls City to remain indefinitely.

# Studebaker

Hendy-Ogier Auto Co. have one of the new 1913 35 and one 25 Studebaker Automobiles. The public is invited to inspect these models at their garage 215 E. Sixth Street. Ask or phone for demonstration and place your order for the next shipment in April.

This six passenger car, new in design is equipped with a Wagner Electric self-starter and lighting system, has 116-inch wheel base and sells fully equipped at North Platte for \$1,350.00. Why put as much in a car without starter and electric lights? Those who have seen this model pronounce it the neatest in design and finish of any cars which have been shown in our city.

The 25 is a very classy little model, Prest-O starter and lights, selling fully equipped at North Platte for \$935.00.

With agencies for the Ford and Studebaker Automobiles, we are selling the cars that sell in number above all other automobiles manufactured in the world. The prices are right and the cars have a reputation none can refute.

With our new two-story garage on the corner of Dewey and Fourth street, which will be ready June 1st, we will be well able to handle the auto sales and repair business in the future.

Mrs. Kettell and son, of Denver, who visited Mr. and Mrs. James Fonda last week, were called to Scotts Bluffs a few days ago by the death of the former's husband who was killed while working there as civil engineer. Mr. Kettell was a former resident of this city, having been employed in surveying here about fifteen years ago.

**He Banked his money  
and became a partner  
in the Business**

Our successful business men began by saving the first money they earned so that when a business chance arose they were in a position to grasp it. Many senior members of great firms became junior members of that same firm by having MONEY SAVED with which to buy the first interest they had in the business. Start a bank account and see how happy you will be to see it grow; it will be the best friend you have and the BEST PARTNER.

### Curious Night Wells.

A curious form of water hole is found in the desert of Western Australia, dry by day, but yielding an abundant supply of water by night. The flow of water is preceded by hissing and sounds of rushing air. The phenomenon is discussed by Dr. Malcolm MacLaren, who has located and examined one of these wells. He found that the water supply occurred in a long, narrow trench, at the bottom of which was a thin plate of gneiss, separated by a cavity from the main rock mass beneath. Apparently the heat of the day causes this plate to expand in the form of a depression, into which the water retreats. When it cools and contracts at night it forces first air and then water back into the trench.
